Practical Clock Escapements
 * By Laurie Penman (Hardcover - 248 pages)
 * For beginners and experienced repairmen
 * In-depth coverage of the five escapements most commonly used in domestic clocks: Crown wheel and verge, Recoil anchor, Graham deadbeat, Brocot and platform escapements
 * Also explored are other less common escapements, gravity escapements and Harrison's grasshopper escapement
 * Includes practical information on how to design and make pallets and escape wheels
 * Practical advice on how to assess faults and repair escapements and detailed information on pendulums and suspensions
 * Over 400 line drawings enhance the lucid, clearly written text
