B234 \$9.50
Anniversary Clock Adjusting
* By Mervyn Passmore (Soft cover, 47 pages)
* A concise book which reveals the workings and adjustments necessary to tune your 400-day clock for optimum running order
* Technical information is kept to a minimum: helpful text and relevant illustrations expand the text into a useful volume of readily applied techniques and information
* Chapters include the suspension, letting down the mainspring, set up, escapement adjustment and more

B249 \$25.00 ~~\$50.00~~
Kroeber Clocks
* Hard Cover - 584 pages
* A highly informative and comprehensive guide which uses exact manufacturer illustrations, examples from prominent collections along with descriptions, specifications, and prices from original catalogs
* Over 2000 quality illustrations and photographs show original style hands, glasses, pendulums, finials and other important case features, along with specific movement information and current suggested prices for mint examples
* All guides are organized so clocks can be found easily and quickly
* A 2006 price update is included with each book

B235 \$45.75 ~~\$65.50~~
Seth Thomas Clocks Vol. 2
* Hard cover, 576 pages
* Expands on the wealth of information found in Volume 1 with all new material
* A unique volume with additional information and a treasury of illustrations
* Featured clock sections include Seth Thomas mantel, ship's bell and ship chronometers, statuettes and candlesticks, street clocks and tower clocks
* Volume 2 also includes Seth Thomas watches and wrist watches
* Other sections cover Seth Thomas movements, Plymouth clocks and Seth Thomas & Sons clocks
* Price update included
